

RE: Limited Permission Before the Featherweight - SEWHANDY (Vol.1 Beginning to End, Volume 1 History and Volume 2 Service and Repair) LP-2022-6-24SewhandyV1/V2

Mark,

I hate the legal mumbo jumbo that we are now forced to resort to, but in a world where most everyone only cares about themselves first with little or no regard to what is ethical, fair, right or even lawful, I am forced to include the following:

As we discussed, you may consider this email as limited permission to upload and post my 3 books: Before the Featherweight - SEWHANDY (Vol.1 Beginning to End, Volume 1 History and Volume 2 Service and Repair) only to your website as well as your FB group. My understanding is, and conditions are, that both your website and FB group are educational in nature, and are non-profit. If I am mistaken about your non-profit status and educational nature, then this limited permission is cancelled and void without further notice, as I cannot authorize any additional distribution by any for profit enterprise or business, group, or individual without voiding my existing agreements with Amazon, LULU, and Kobo. I also require that each book's copyright page be included in your uploading and posting in order to ensure that everyone understands that while they may download and use these 3 books for their own personal use, they may not download and reproduce to share or distribute any part of them for profit or personal gain. Sadly, as an author with over 40 books now distributed worldwide, I am forced to monitor for theft of my written works and to take civil action if I find them illegally duplicated and sold, and stolen in violation of my Copyrights.

To be as clear as possible, I am not moving these 3 books: Before the Featherweight - SEWHANDY (Vol.1 Beginning to End, Volume 1 History and Volume 2 Service and Repair) into "Public Domain" and never will in my lifetime + 75 years. The limited permission I am granting is only to you personally and only for use on your website and FB group, and does not extend to any other use or anyone else associated with your website or FB group, including spouse, partner, relative, or heirs, etc, and cannot be transferred or sold by you. Upon your death, this limited permission to upload and post my 3 books: Before the Featherweight - SEWHANDY (Vol.1 Beginning to End, Volume 1 History and Volume 2 Service and Repair) to both your website as well as your FB group expires and is cancelled immediately without further notice. It is also cancelled and void immediately without further notice if any of the conditions explained above are violated, or if my conditions are not enforced by you as well as you are able to.

By uploading the contents of the 3 books listed, you agree to the conditions I have required above. If there are any issues with my limited permission requirements or my understanding as to your non-profit and educational nature, please call me before uploading my works to your website and FB Group. Questions, call me immediately.

I fully support your efforts to share Sewing Machine information with others, and thank you for requesting access to include my 3 books.

I have shared this limited permission email with my wife, and co-owner of DarrelKaiserBooks.com, Diane Kurek Kaiser (formerly Diane Neustadter).

Sincerely,
D. Phillip Kaiser

Subject: Permission to Post your books on the Sewhandy

Dear Darrel,

My name is Mark Sumpter and I am a mechanic of over 50 years in the sewing industry as well as a website owner of a resource page for various manuals and obscure sewing information and files of service manuals, parts manuals and user manuals as well as an administrator of a relatively large sewing machine resource group on FB.

I would like to ask you if I could get your permission to upload your 3 books (Vol.1 Beginning to End, Volume 1 History and Volume 2 Service and Repair) on the Sew Handy to both my site as well as my FB group.

I know you have a copyright statement and I will respect that but I also think it is critical that much of the sewing information needs to be passed along to newer sewing mechanics, collectors and historians else it gets lost as some of us older guys pass on. I also have the belief that sewing machine manufacturers have long held information that should have long ago been allowed available to the public like service manuals and other resources made available thru dealer networks only. Thankfully some things are changing in this field as the internet matures

and some parts begin making their way into the DIY community as well as repair shops become fewer and fewer.

Please sir I would like to have your permission in this matter but will respect your decision either way. Thanks again for your time and attention.

Mark Sumpter
